## Aliens, Robots & Virtual Reality Idols in the Science Fiction of H. P. Lovecraft, Isaac Asimov and William Gibson

John L. Steadman

H. P. Lovecraft's aliens are extra-terrestrial, terrestrial & trans-dimensional entities. In contrast, Isaac Asimov's and William Gibson's aliens are human-created positronic robots and virtual reality constructs, or 'idols'. John L. Steadman demonstrates that there is ultimately little difference between alien indifferentism and alien inclusionism in the fictional works of these three great writers.

"... guarantees that you will never look at the writing of Lovecraft, Asimov or Gibson in the same way again." **Dr David Simmons, Senior Lecturer in English and Screen Studies, University of Northampton**

**Zero Books;** 2020-10-30; Science Fiction & Fantasy/American (General)/Robotics; Pb-9781789045109, \$25.95/£16.99, 272pp, 8.5x5.5inches / 216x140mm, Ebk-9781789045116, \$20.99/£13.99.

## Brexit: The Establishment Civil War

Josh Hamilton

Wrapped up in a story of the British public's rejection of the establishment is a much darker story about shady money, untoward digital campaign tactics, and a fraught battle exploding from the highest rungs of British politics and society. *Brexit: The Establishment Civil War* is a crucial examination of what is now driving British politics, the forces attempting to manipulate it, and the online warfare techniques that are being deployed in modern politics.

## Albion's Secret History

Guy Mankowski

*Albion's Secret History* compiles snapshots of English pop culture's rebels and outsiders, from Evelyn Waugh to PJ Harvey via The Long Blondes and The Libertines.

"Guy Mankowski has written the book I've been wanting to read for years. 'Albion's Secret History is a highly intelligent and loving meditation on creativity and artistic freedoms, pursued over decades by a host of innovators, to those who had previously been denied on the basis of their position within English culture..." **Daniel Gothard, author of Reunited and Simon Says**

## Cauldron of Anxiety, A

William Briggs

Capitalism has passed its use-by-date, but a better, saner world is possible.

"A *Cauldron of Anxiety* is a book for anyone left feeling wretched by the state of our world: the poverty, the degradation of our environment, the brutality of our rulers. Briggs blames all our ills singly and compellingly on the capitalist system, insisting that it is the monster against which all of us should unite. He helps us to see a world beyond the misery of our present." **David Renton, author of *The New Authoritarians: Convergence on the Right***

**Zero Books;** 2021-03-26; Communism, Post-Communism & Socialism/Social Psychology/Political; Pb-9781789046090, \$19.95/£12.99, 192pp, 8.5x5.5inches / 216x140mm, Ebk-9781789046106, \$15.99/£10.99.

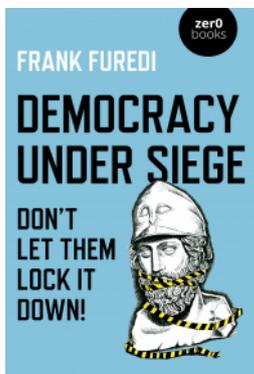

## Conscience of a Progressive, The

Steven Klees

Prof. Klees draws on 45 years of work around the world as an economist and international educator to paint a detailed picture of conservative, liberal, and progressive views on a wide range of current social issues. He takes an in-depth look at his specializations: education, economics, poverty and inequality, international development, and capitalism. He examines major social problems like health care, the climate crisis, and war. Throughout the book, Prof. Klees tries to give a fair and careful depiction of how conservatives and liberals see these issues, whilst focusing on critiques by progressives, and on the alternatives they offer.

## Democracy Under Siege

Frank Furedi

Frank Furedi examines the frequent claim that democracy is a means to an end rather than an important value in and of itself. The prevalence of this sentiment in the current era is not surprising, given that the normative foundation for democracy is fragile, and there is little cultural valuation for this outlook.

*Democracy Under Siege* outlines the long history of anti-democratic thought, explains why hostility to democracy has gained momentum in the current era, and offers a positive affirmation of the principle and the value of democracy.

**Zero Books;** 2020-10-30; History & Theory/Democracy/Comparative Politics; Pb-9781789046281, \$19.95/£12.99, 168pp, 8.5x5.5inches / 216x140mm, Ebk-9781789046298, \$15.99/£10.99.

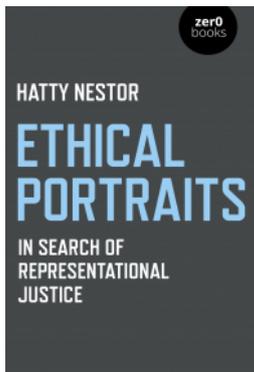

## End of the Megamachine, The

Fabian Scheidler

Provides a uniquely comprehensive picture of the roots of the destructive forces that are threatening the future of humankind. Spanning 5000 years of history, the book shows how the three tyrannies of militarized states, capital accumulation and ideological power have been steering both ecosystems and societies to the brink of collapse. With the growing instability of the Megamachine in the 21st century, new dangers open up as well as new possibilities for systemic change, to which everyone can contribute.

"The topic could not be more important. A very valuable and surely timely contribution." **Noam Chomsky**

## Ethical Portraits

Hatty Nestor

Prisons systematically dehumanise the imprisoned. Visualised through mugshots and surveillance recordings, the incarcerated lose control of their own image and identity. *Ethical Portraits* investigates the representation of the incarcerated in the US criminal justice system. Through interviews, creative non-fiction, and cultural theory, Hatty Nestor deconstructs a range of different prison portraiture.

## Norms Under Siege. The Parallel Political Lives of Donald Trump and Silvio Berlusconi

Edoardo M Fracanzani

A look at the striking similarities between Donald Trump and Silvio Berlusconi, from their business and TV backgrounds to the unprecedented way in which they broke into politics. Both leaders introduced new language patterns, deepened the political wedge between parties, and managed to recruit a significant base of followers; should they be considered a cult, rather than political affiliation? In *Norms Under Siege*, Edoardo M. Fracanzani goes beyond comparisons between Trump and Berlusconi and asks what is revealed about the kind of society that would allow their rise to power.

## Farewell to Democracy?

Jack Luzkow

*Farewell to Democracy?* is a manifesto that beckons us forward. It reminds us how we stumbled and tells us how to get back on our feet. If you think you are living in an era of post-truth, you likely are. *Farewell to Democracy?* insists that nothing is inevitable. That we are not powerless. That we have institutions to help protect us, which we must protect in turn. It shows us what happens when we speak truth to power. It details the strength of mass protest. It pulls back the veil on Post-Truth. It urges all of us to bear witness and to "show up."

## He Was Our Man in Washington

Owen Symes

*He Was Our Man in Washington* provides a detailed narrative of the years of the Obama administration.

"Here is a comprehensively researched, well-argued, and balanced evaluation of Obama's presidency. Given the hostile caricatures promoted by the Trump regime and its spokespersons, Owen Symes has produced a valuable assessment of hopes and promises, strengths and failures of an important chapter in US history." **Richard D. Wolff, Professor of Economics Emeritus, University of Massachusetts, Amherst**

## In Praise of Friendship

Michał Herer

If we are to resist returning to the logic of clashing, violent particularisms and defend ourselves against fascist or fascistoid tendencies that appear on the political horizon, we need a renaissance of the culture of friendship.

*"In the last two centuries or so we've been telling each other why are we divided. Mr Herer demonstrates in a novel way that the foundations of togetherness are not lacking, even if they don't coincide with the foundations of our societies. This is both alarming and reassuring."* **G. M. Tamás, Visiting Professor at the Central European University in Budapest and Vienna**

## Transcending Racial Divisions

Christine Louis-Dit-Sully

Today, with the increasing demand to recognize the seemingly insurmountable gap between black people and white people, identity-based anti-racism has become more of a hindrance than a solution for a better and freer world for us all.

Christine Louis-Dit-Sully examines the origins of racial thinking and the relationship between race and culture, she asks us to recognise that racial thinking is not the only way of understanding ourselves and the world around us.

## Stay Alive

Michael Harris

When The Hunger Games series began in 2008, many commentators lumped it in with other young adult genre fiction. But The Hunger Games was always more political. It's since become the defining story for a generation that's grown up with economic crisis and never ending war. *Stay Alive* uses the story to shed light on our own age of extreme inequalities and climate collapse, in which elites use state power, compliant media, and violent spectacle to pacify their populations. *Stay Alive* reveals the hidden revolution at the heart of The Hunger Games and what it means for our age of defiant youth-led revolt.

## TWICE: A Novel

Susanna Kleeman

Nim's ex-love returns from Silicon Valley, wanting a book from their childhood. She chucks him out. Moments later, he's back again, one fingertip missing, claiming he's the real Chris and that Nim's first visitor was an imposter. Nim doesn't believe him, so he abducts her, forcing her on a journey where nothing is as it seems.

*"Wryly hilarious and utterly bonkers, TWICE is like nothing I've encountered. Imagine David Cronenberg making a horror film after binge-watching Fleabag, and you'll have a general idea of the kind of roller-coaster ride that awaits in Kleeman's delightful horror."* **Dan Chaon | author of ILL WILL**

## Removing the Stalin Stain

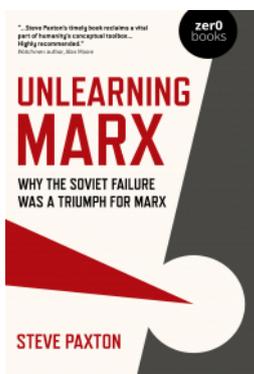

William Briggs

Can Marxism emerge from the long shadow cast by Stalinism, and challenge capitalism?

William Briggs gives a rousing defence of Marxism, calling for a return of the working class to the centre of potential struggle. Briggs seeks to heal the damage done to Marxism, in the name of Marxism, over generations past.

*"...presents a clearly argued and outward-facing Marxist analysis of contemporary politics."* **Terrell Carver, Professor of Political Theory, University of Bristol, UK**

## Unlearning Marx

Steve Paxton

Why the Soviet failure was a triumph for Marx.

Highly recommended."* **Alan Moore, author, Watchmen and V for Vendetta**

## Decoding Jung's Metaphysics

## Decoding Schopenhauer's Metaphysics

Bernardo Kastrup

## Mysteries of Reality, The

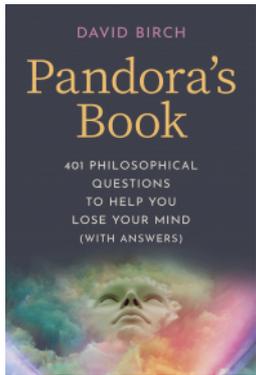

Gayle Kimball, Ph.D.

Since going against the dominant worldview provokes opposition, this book explores the personal backgrounds of the scientists to find out why they are so courageous. We learn that there is another dimension that allows for enhanced abilities.

"Getting scientists of any ilk to admit to anything mystical or spiritual in their lives is quite a task—as you might suspect since scientists are so logically and usually materialistic-minded in their views. Gayle Kimball has done just that, and it makes for some interesting reading as to what drives the scientific inquiry..."

## Still Starving After All These Years

Jeri Studebaker

Do you want an end to war and inequality? Listen to your starving ancestors for clues to a solution.

Large-scale architecture was invented to store hoarded food and other goods, produced by the enslaved masses but enjoyed by the powerful elite. Writing was invented to keep track of hoarded commodities. Institutionalized warfare was invented to steal slaves, who could produce more for the monumental storage containers. A striking parallel with today's governments' violent obsessions over endless growth. This prevailing mindset can and must be undone or else we risk the annihilation of humanity.

**Iff Books;** 2021-01-29; Comparative Politics/Cultural & Social/Wars & Conflicts (Other); Pb-9781789044881, \$21.95/£14.99, 216pp, 8.5x5.5inches / 216x140mm, Ebk-9781789044898, \$17.99/£11.99.

## Resetting Our Future: Zero Waste Living, The 80/20 Way

Stephanie J. Miller

Many of us feel powerless to solve the looming climate and waste crises. We have too much on our plates, and may think these problems are better solved by governments and businesses. This book unlocks the potential in each "too busy" individual to be a crucial part of the solution. Stephanie Miller combines her career focused on climate change with her own research and personal experience to show how a few, relatively easy lifestyle changes can create significant positive impact. Using the simplicity of the 80/20 rule, she shows us those things (the 20%) that we can do to make the biggest (80%) difference in reversing the climate and waste crises.

## Resetting Our Future: A Chicken Can't Lay a Duck Egg

Graeme Maxton & Bernice Maxton-Lee

Vast swathes of the current economic system have to be dismantled to secure humanity's future. Until recently that was thought impossible. Covid-19 proves this wrong. It is possible to shut polluting businesses overnight and pay people during a transition. Because Covid-19 has done half the job for us, a sustainable future is finally within our grasp. This book explains how societies can embrace this unique chance to build a future where people live with decency, and in balance with nature.

## Resetting Our Future: What If Solving the Climate Crisis Is Simple?

Tom Bowman

An inspiring and practical narrative that will leave readers feeling uplifted and empowered to create a future they are eager to embrace.

*"Too often we encounter efforts to dismiss climate change as a "wicked" (that is, unsolvable) problem. But nothing could be more wicked than such unhelpful framing. As Tom Bowman explains in this inspiring, concise primer on climate action, we have the ability to surmount this mentality, if we simply make the commitment to not just try, but do."* **Michael Mann, Distinguished Professor, Penn State University and author of The New Climate War: The Fight to Take Back Our Planet**

"Fenton's meticulous research and careful analysis upends the myths and distortions that have dogged one of history's biggest scapegoats. Her engaging and lively prose brings to life the true Lady Rochford and seeks to demolish all the lies we've been told about her over the last five centuries. ## Elizabeth I's Last Favourite

Sarah-Beth Watkins

In *Elizabeth I's Last Favourite*, Sarah-Beth Watkins brings to life the story of Robert Devereux, 2nd Earl of Essex, the young upstart courtier who was the stepson of her most famous love, Robert Dudley, Earl of Leicester. Although he tried, throughout his life, to live up to his stepfather's memory, Essex would never be the man he was. One disastrous commission after another befell the earl, from his military campaigns, to voyages seeking treasure, to his stint as spymaster. Ultimately, his relationship with the queen would suffer and his final act of rebellion would force Elizabeth I to ensure her last favourite troubled her no more.

## York Princesses, The

Sarah J. Hodder

Sisters of the infamous 'Princes in the Tower', the daughters of Elizabeth Woodville and Edward IV survived the reign of Richard III and even thrived into the Tudor Age. This is their story.

"A thoroughly engaging read. Hodder places the Woodville sisters in the context of their times, giving us a deeper look into the lives of the women at the heart of the conflict known as the Wars of the Roses...Hodder brings these women out of the shadows and gives them voice, contributing to a better understanding of the world they inhabited." **Adrienne Dillard, author of Catherine Carey in a Nutshell**

## Queen's Sisters, The

Sarah J. Hodder

Whether Queen or commoner, the lives of women throughout history is a fascinating study. Elizabeth Woodville, 'The White Queen', managed to make the transition from commoner to Queen and became the epitome of medieval heroines – the commoner who married a King.

When she became the wife of Edward IV her actions changed the life of her entire family. Vilified both by their contemporaries and by many historians since, the Woodville family were centre stage during the reigns of Edward IV and Richard III. Elizabeth Woodville became the ancestress of future Kings and Queens. This book takes a fresh look at the lives of Elizabeth's sisters.

## Lessons I Have Unlearned

Florence Gildea

We all have ideas about what we think life will be like – ideas we pick up from books, films, music videos, the adults around us, and even church. But it isn't long before life throws some curve-balls at us. Discovering that life isn't what I expected, and neither is God.

*"Florence wades right into discussions about identity and spirituality, speaking to those inner voices which all of us battle, with clarity and fluency. I highly recommend this book for every person, because we all battle fears and insecurities."* **Selina Stone, Tutor and Lecturer in Political Theology at St Mellitus College**

## Quaker Quicks - In STEP with Quaker Testimony

Joanna Godfrey Wood

Margaret Fell was an inspiring and practical leader in the early Quaker movement in 17th-century England. Remembered as the wife of George Fox, her writings have been largely forgotten. This book brings them to life again.

*"In this inspiring and beautiful book Joanna creates a bridge across time to the writings of Margaret Fell over 350 years ago. The personal experiences and reflections of these two women are woven together as we share their journeys of discovery. A reminder of the roots of Quakerism. A joy to travel with them both."* **Ruth Tod, author of Positive Parenting in a Peaceful World**

## Taking Heart

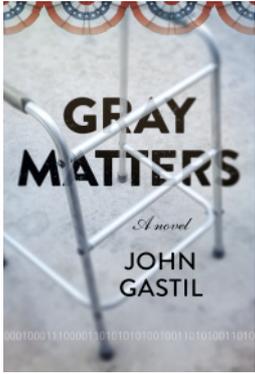

Fiona Gardner

The meaning and mystery of life is ultimately found in personal relationship, sometimes with another and, for those who search, sometimes with God. In *Taking Heart*, the experiences of four people who are spiritually searching and looking for a direct experience of God are explored, and their different journeys through self-doubt to self-acceptance and to the heart of faith are discussed. These four people are neither especially religious nor spiritual, and nor are they famous. They are ordinary people on an extraordinary search for meaning.

## Gray Matters

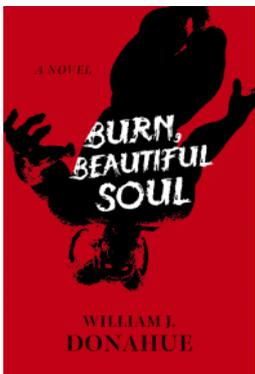

John Webster Gastil

Can the digital networks that record our footprints hold us steady when dementia threatens to push us off the path?

"Gray Matters creates a dystopia that feels hauntingly close to where we are headed today. Gastil's first novel is a technological and political allegory that is equal parts Margaret Atwood and Dave Eggers. Rich metaphors, poignant humor, and brilliant writing kept me wiping away tears from laughing, crying, or both."

**Genevieve Fuji Johnson, author of Democratic Illusion**

**Cosmic Egg Books;** 2020-07-31; Cyberpunk/Political/Medical; Pb-9781789045024, \$19.95/£13.99, 370pp, 8.5x5.5inches / 216x140mm, Ebk-9781789045031, \$9.99/£6.99.

## Burn, Beautiful Soul

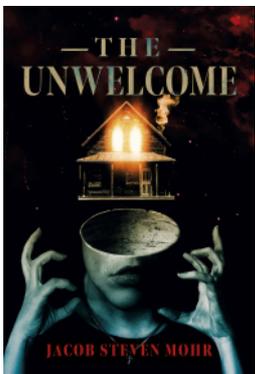

William J. Donahue

Basil the demon king has grown tired of life underground and regretful of the atrocities he has committed to maintain power. Wanderlust leads him to the surface. Most humans seem unfazed by his arrival – but not all. A religious zealot with murderous intentions and a vengeful biker gang seek his end.

Meanwhile, Basil must contend with the disturbing dreams that suggest he was once human; and the pull of the underworld, drawing him back to deal with the troubles he left behind – a cunning foe who craves the throne, a monstrous kraken, and an ancient evil as cold and dark as the soil.

"...a story you will never forget." **John Schoffstall, author of Half-Witch**

## The Unwelcome

Jacob Steven Mohr

But she should have known... Lutz would never let her go so easily.

"Atmospheric... phantasmagoric. The Unwelcome has the dreamlike, autumnal slow burn of a low-budget thriller flick, with the dark, corrosive undercurrent of an old-school Gothic. Like reading Koontz in his prime."

**S. A. Hunt, author of Burn the Dark**

**Cosmic Egg Books;** 2021-01-29; Horror/Small Town & Rural/Supernatural; Pb-9781789045598, \$12.95/£7.99, 312pp, 8.5x5.5inches / 216x140mm, Ebk-9781789045604, \$6.99/£3.99.

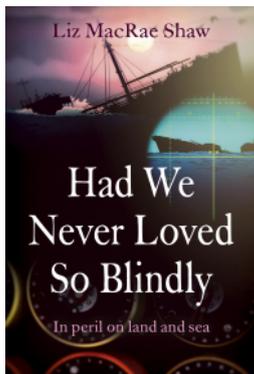

## We, The Wanted

Matthew Schultz & Jordan Lepore

Set in the middle of the Nineteenth Century at a time of great migration to and within North America, famine emigrant, Patrick Gallagher, secures passage aboard a transatlantic coffin ship from Ireland to Canada, where he finds himself prey to a very different sort of hunger. Meanwhile, Angèle Paris D'Arcantel, a Vodou priestess, flees slavery and impending Civil War in New Orleans. *We, The Wanted* is a gothic tale of grim isolation, the consequences of (dis)belief, and the monsters that continue to lurk beyond the pale of civilization hoping to lure everyone into their darkness.

**Had We Never Loved So Blindly**

Liz MacRae Shaw

A Hebridean love story, swept up on the tides of WW2, from Naval convoys to Bletchley Park.

**Where Madness Lies**

Sylvia True

"Sylvia True's novel is a voyage into the madness of madness, tracing the Nazis' seduction of Germany into the moral catastrophe of racial hygiene. The author shows us not only how the eugenics of race hygiene threaten a family held hostage by its cruelty, but how echoes of this struggle resonate years later in the safety of postwar America. The narrative is written in the voices of two women you can't stop caring about....." **Alex Rosenberg, author of *The Girl from Krakow***
